Read the following passage and answer T or F:

(Helping Others)

Helping others is a beautiful habit. When we help people, we make them happy and we feel happy too. Sometimes, helping is very simple, like giving water to someone or opening the door for an elderly person. At school, we can help our classmates with homework or share our things with them. At home, we can help our parents by cleaning or taking care of our younger brothers and sisters. Helping others builds love and respect between people. It also makes our community stronger. Everyone should learn to help, because one day we may also need help from others.

– Mark the following sentences with (T) or (F) :

	T	F
1. Helping others makes people happy.	T	
2. Helping is always stressful and difficult.		F
