## 2-Read the following passage and answer True or False: -

Saudi Arabia 2030 Vision is a plan for a better and more prosperous future. It started in 2016 with strong leadership and clear goals. The vision aims to reduce the country's dependence on oil. It also focuses on developing new sectors like tourism, entertainment, and technology. One big success is the launch of NEOM, a smart city of the future. Many international air contestants now arrive to attend events and festivals. Saudi Arabia has hosted global sports events like Formula E and boxing matches. These events were broadcast around the world, showing a new version of the country. The culture scene has grown with cinemas, concerts, and art exhibitions. One puzzling change was how fast everything improved in just a few years. Women now drive, work, and lead in many fields, which is very inspiring. The country also made great efforts in education and digital transformation. It opened many opportunities for the youth and entrepreneurs. Saudi Vision 2030 also includes protecting the environment and green energy projects. There are many jobs created in the tourism and tech sectors. New cities and transport systems are being built across the kingdom. The government shared the plot for future projects in clear plans. People feel prouder and more excited about the future. This version of Saudi Arabia is modern but respects its traditions. Vision 2030 continues to lead the country to a better and brighter future.
