Read the following passage and then answer the questions below:

(Healthy Life)

Salem wanted to have a healthy life. He used to eat a lot of junk food and play video games all day. One day, he felt tired and decided to change his habits. He started eating fruits and vegetables every day. He also drank more water and slept early. Salem began to walk and exercise in the park with his friends. After a few weeks, he felt stronger and happier. His teacher said, "You look great, Salem!" He smiled and said, "Because I live a healthy life now."
