Read the following passage and Answer the questions:

The Museum of Science has many things from the world of science and technology. Visitors can see over 800 exhibits and more than 2,000 interactive units.

You can walk through a six-meter model of a human heart, see the first spacecraft to go around the moon, and go inside a German submarine from World War II (1944).

Special attractions include the Leonardo da Vinci exhibition, where you can discover the inventions of this famous painter and inventor.

You can also visit the Omnimax 3-D Theater, which shows a film about Greece and takes viewers back in time to the birthplace of Western civilization.

Mark True (T) or False (F):

	T	F
1. The Museum of Science has more than 2,000 interactive units.	T
