B- Read the text and put (T) for true and (F) for false:

Sea Life

Many animals live in the sea. Dolphins are smart and friendly animals. They live in groups and they can swim very fast. Dolphins eat fish and they sometimes jump out of the water.

Sharks also live in the sea. Some sharks are big and strong. Sharks have sharp teeth and they can be dangerous. They usually eat fish and other sea animals.

People like to watch sea animals in documentaries. Sea life is beautiful and interesting, but we must be careful and protect the ocean.

	T	F
