2- Read the following passage, then answer the questions below:

Technology at School

Technology is very important in our daily life. Many students use computers and tablets at school to learn new things. Teachers use smart boards to explain lessons in an easy way. Students can search for information on the internet to help with homework. They can also watch educational videos to understand lessons better. However, students should use technology in a good way. Using phones in class without permission is not allowed. Too much screen time can be bad for the eyes. Technology helps students communicate with their teachers and classmates. It makes learning more interesting and enjoyable.

Mark True or False:

	T	F
