Worksheet for Week Twelve

Questions

Level	Elementary	Name	
Subject	English	Class	Grade 4

Read and write **T** for True or **F** for False.

A pencil you can plant!

How many pencils do you usually use in a school year? Ten? Fifteen? Are they too small and you can't use them anymore, so you throw them away? Not anymore! You can have a garden full of beautiful flowers or delicious vegetables! When your pencil is too small to write, just plant it. These special pencils don't have an eraser on top. They have a seed. Just choose the right place to plant it, add some water and then plant the pencil. You shouldn't plant the pencil straight up. It's better that the pencil is leaning to one side because this way helps the plant grow more easily. Don't forget to plant the pencil in a place with lots of sunlight.

The best part is that you can choose what your old pencil can become. Choose between different colorful flowers or delicious plants and vegetables, for example cherry tomatoes.

	T	F
1. You can plant your pencils in your garden when they are too small to use them.	T	
2. These special pencils have an eraser on top.		F
3. These special pencils don't need any water when you plant them.		F
4. Your old pencil can only become a flower.	T	
5. You should plant the pencil when it is too small to write with.	T	
6. These special pencils have a seed.	T	
7. You should plant the pencil straight up.		F
8. The pencil should be planted in a place with lots of sunlight.	T	
9. Your old pencil can become cherry tomatoes.	T
