

Second Semester of the Academic Year 1447-2025

Worksheet (9)

Level	4	Name	
Subject	Math	Class	

First: Find the product of the given numbers.

a. $45 \times 30 = 1350$

b. $63 \times 24 = 1512$

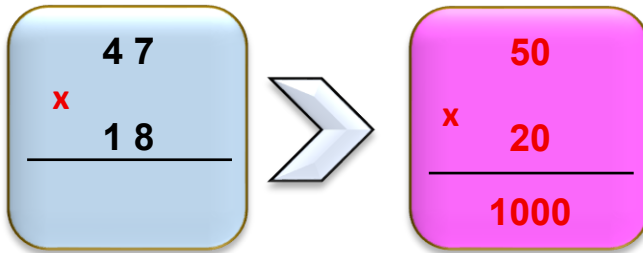

Second: Use area model to find the product.

a. $31 \times 72 = 2232$

$2100 + 60 + 70 + 2 = 2232$

	70	2
30	2100	60
1	70	2

Third: Estimate the product.

Fourth: Answer the following.

Fatima planted seedings in 14 rows, with 18 plants in each row. How many seedings did she plant in total?

$14 \times 18 = 252$ seedings
